

INSTRUCTIONS FOR WHOLE HOUSE CLEANING

Laundry: All Washer Types Including HE

- Fill washer with any temperature water, add 1 scoop of Powerizer for normal loads.
- Large or Heavy soiled laundry add up to 2 scoops per load.

Pre-Treat Stains:

- Recommended to pre-treat stains immediately for best results.
- Dissolve detergent into an open container or squeeze bottle.
- 1 scoop to every gallon of water. Mix/Shake until completely dissolved. Saturate stain with solution. Some tough stains can take up to 6 hours to dissolve.
- For best results wash as normal with Powerizer detergent.

*Some Stains May Require Scrubbing

Automatic Dishwasher:

- Small Loads ½- ¾ scoop
- Medium/Large Load ¾-1 scoop

*Do Not Over Fill Dispenserz

Carpet and Upholstery:

- Mix 1 scoop to 1 gallon of warm to hot water until dissolved. For spot cleaning saturate area, massage solution into fibers and let sit for 5-10 minutes. Blot area with dry towel. Repeat as needed if stain is still visible. Rinse with clean water, re-blot until solution is gone and until dry and residue is gone.

Flooring: Tile, Grout and Bathroom

- Mix 1-3 teaspoons of Powerizer with warm to hot water until dissolved in an open container or squeeze bottle. Pour solution in or over area, let sit for 1-3 minutes and scrub/wipe area then rinse surface.

Read Before Use

Always test on fabrics first if not certain of bleeding. Safe to use on Color Safe Fabrics. Do not use on wool, wool blends, silk, silk blends, leather and fabrics that say Dry Clean Only. Use recommended amount of detergent to insure no color loss.
